Skin is lathered with HydraFacial™ Antiox-6™ serum to combat free radicals before the final moisture application.

**BODY TREATMENTS**

**Equinox Solstice Signature Body**

Our signature treatment begins with an exfoliation and warm thermo-therapy to activate circulation. A unique sculpting body mask is applied to enhance the body's overall appearance. Choose one of three advanced scientific formulas:

- Body Firm to tone and tighten
- Body Smooth as an anti-cellulite treatment

**Equinox Solstice Spa Ritual – Indian Floral Massage**

This lavish treatment provides a complete sensory experience. Your body is gently exfoliated to remove dull lifeless skin. A purification wrap improves circulation and prepares the body for an ancient message technique. This floral ritual combines wisdom from traditional Chinese medicine and Ayurveda from India. Expert hands and heated floral satchets work together to reduce muscular tension, eliminate physical and mental stress, relieve pain, improve micro-circulation and eliminate toxins, inducing a state of deep relaxation.
